

On-going Projects under Multiplier Grants Scheme (MGS)

- “Reliable Processor Platform for critical Applications” is being implemented by IIT Bombay in Conjunction with Powai Labs Technology Pvt.Ltd.

Objective: To deliver a fully verified and fault tolerant processor (with real Time Operating system (RTOS) and development tools.

Contact Details:

- Chief Investigator of the project:

Professor Madhav P. Desai,
Department of Electrical Engineering,
Indian Institute of Technology Bombay,
Powai, Mumbai-400076, India
Email: madhav@ee.iitb.ac.in

- Industry partner:

Sh. Reapan Tikoo
Chief Industry Coordinator
M/s Powai Labs Technology Pvt. Ltd., 104 Marwah Complex
Off Saki Vihar Road, Andheri (E), Mumbai-400072
Email: reapan@powailabs.com

- “Prototyping a CVD Reactor and Recipe for Grapheme Growth” is being implemented by Indian Institute of Science, Bangalore jointly with KAS Technology Pvt.Ltd, Mumbai.

Objective: To build a CVD optimized reactor to produce a high quality single layer Graphene (SLG).

Contact Details:

- Chief Investigator of the project:

Prof. Srinivasan Raghavan,
Assistant Professor
Centre for Nano Science & Engg. (CeNSE),
Indian Institute of Science, Bangalore,
Karnataka – 560012
Email: sraghavan@cense.iisc.ernet.in

- Industry partner:

Sh. Manju Nath, CEO
KAS technologies
AA-55, kailash Industrial Complex,
Hiranawdani Link Road,
Vikhroli, West Mumbai- 400079
Email: manjunath@kastech.in
