NeGD hosts Webinar on Entity Locker

In association with the Confederation of Indian Industry (CII)

Innovative document management solution designed for business entities, MSMEs, and organisations

A part of a broader series of initiatives to promote paperless governance and drive digital transformation

25.10.2024

The National e-Governance Division (NeGD), in collaboration with the Confederation of Indian Industry (CII), organized a webinar on **November 25 2024**, focusing on **Entity Locker**, an innovative document management solution designed for business entities, MSMEs, and organisations.

The webinar shed light on **Entity Locker: Document Wallet**, an advanced extension of the DigiLocker platform. **Entity Locker** empowers organisations by offering secure, cloud-based digital document storage and streamlined processes for issuing, sharing, and verifying important documents. This initiative represents a significant step forward in the **Digital India** campaign, enhancing the efficiency and transparency of governance while eliminating the need for physical documents.

Through this webinar, NeGD initiated important discussions on **key aspects of e-governance**, such as digital transformation for organizations, secure document handling, and regulatory compliance in a paperless era. The session also highlighted the critical role of technology in improving operational efficiency for businesses across sectors.

The webinar attracted hundreds of participants, highlighting strong interest in Entity Locker's digital document solutions. The session was enriched by an insightful address from Mr. Shivaji Sen, Principal- ICT at CII, along with Entity Locker's own experts who delved into its innovative features. Experts of Entity Locker highlighted the platform's secure and streamlined functionalities, which include Authorized Person and Company Verification, instant access to government and regulatory documents, and secure sharing with partners through advanced digital signature capabilities.

Confederation of Indian Industry (CII) played a key role as an industry partner, highlighting the importance of adopting digital solutions for businesses to stay competitive. CII reiterated their commitment to supporting initiatives like Entity Locker, which foster digital empowerment and sustainable business practices.

This webinar is part of a broader series of initiatives planned by NeGD to promote **paperless governance** and drive **digital transformation** across sectors. More such events are expected in the future, focusing on different facets of e-governance and innovation.

Entity Locker: Empowering Organizations in the Digital Era
Entity Locker is a pioneering addition to the DigiLocker ecosystem. Committed to revolutionizing governance, DigiLocker has proven to be an essential platform for individuals, and now **Entity Locker** aims to extend these benefits to corporate entities, MSMEs, and other organizations. It enables company directors and proprietors to authenticate their businesses through robust company data verification.
