

Major Outcomes of TIDE Scheme:

- Till date, 207 start-ups incubated under the scheme.
- Till date, 243 products have been developed by 207 startups. Out of 228 products, 74 patents were registered by the startups.
- 74 number of patents registered to the start-ups indicates their existence in technological innovation and global competitiveness. It encourages the development of indigenous product & packages and bridging the gap between R & D and commercial viability of the product(s).
